

CONTENTS

Preface	vii
Foreword	
Evoked potentials in children: a clinical appraisal A. Guareschi-Cazzullo	ix
List of abbreviations	xv
VISUAL SYSTEM	
Clinical electrophysiology of the human visual system D. Papakostopoulos	3
Maturation of the visual evoked potentials A. Harden	41
Clinical applications of EOG, ERG, and VEP in pediatric ophthalmology A. Penne, A.D. Sargentini and V. Macellari	61
Clinical applications of flash and pattern reversal visual evoked potentials (VEPs) in paediatric neurology D. Gambi, P.M. Rossini and M. Minervino	93
Combined electrophysiological assessment of the visual system in children D. Papakostopoulos, S. Oriani and P. Newton	115
Altered development of visual evoked potentials (VEPs): analysis of some experimental models F. Pinto, A.L. Abbamondi, G.G. Garzetti, M. Onofrj, R. Mancinelli and P. Pola	143
SOMATO-SENSORY SYSTEM	
Surface distribution and neuronal origin of somatosensory evoked potentials S.J. Jones	163
Maturation of the somesthetic evoked potentials in normal children P. Laget	185
Clinical applications of the spinal and cortical somatosensory evoked potentials E.M. Sedgwick	207
Developmental-anatomophysiological correlates of intermediate and short latency SEPs and their clinical perspectives in pediatric neurology P.M. Rossini, R. Pallotta and D. Gambi	221

Movement related brain macropotentials during skilled performance task in children with learning disabilities G.A. Chiarenza, D. Papakostopoulos, A. Guareschi Cazzullo, G. Giordana and G. Giammari Alde	259
 AUDITORY SYSTEM	
Electrophysiology of the auditory system D.K. Prasher	295
Maturation of auditory evoked potentials R. Galambos	323
Clinical application of electrocochleography (ECoG) in children A. Parving and C. Elberling	345
Brainstem acoustic evoked potentials in preterm and fullterm newborns. A follow-up study G.A. Chiarenza, V. Console, M. Airaghi, S. Oriani, V. Acquistapace, G.M. D'Ambrosio, D.R. Bindelli, F. Moro and G. Diasio	363
Follow-up of bacterial meningitis by the brainstem auditory evoked potentials in children P.A. Despland, A. Vienny and Th. Deonna	379
Brainstem auditory evoked potentials and electronystagmography findings in Friedreich's ataxia L. Rossi, A. Amantini, A. Bindi, G. De Scisciolo, P. Pagnini, O. Ronchi, M. Papini, A. Pasquinelli and M. Bigozzi	385
Pediatric applications of the brainstem auditory evoked response K. Hecox	397
 Author index	 415
